

What You Need to Know About Overdrafts and Overdraft Fees

An overdraft occurs when you do not have enough money in your account to cover a transaction, but Village Bank pays it anyway.

We can cover your overdrafts as follows:

- We have standard overdraft practices, which are at the banks discretion, that come with your account.
- We also offer one or more overdraft protection plans which may be less expensive than our standard overdraft practices, such as the following (to learn more, ask us about these plans):
 - A line of credit; you must apply and be approved for this product.
 - A link to another account
 - Overdraft Assurance; you must apply and be approved for this product.

What are our standard overdraft practices that come with your account?

At our discretion, we will authorize and pay overdrafts for the following types of transactions:

- Checks
- Checks and other transactions using your checking account number
- Automatic bill payments
- ACH transactions

We **do not** authorize and pay overdrafts for the following types of transactions unless you request *

- ATM transactions
- Everyday debit card transactions

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What Fees will be charged if Village Bank pays my overdraft?

- Under our standard overdraft practices the following fees are imposed:
 - A fee of \$37.00 may be charged each time we pay an overdraft, up to a maximum of 5 fees per day on consumer accounts. There is no maximum for business accounts.
 - A fee of \$5.00 per day will be charged for each day your account is overdrawn for more than 7 consecutive days.
